APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use of the waters of an underground source as heretofore granted under Permit 28867 is issued subject to the terms and conditions imposed in said Permit 28867 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under this permit and Permits 35968 and 35969 shall not exceed 76.65 million gallons annually.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.4 million gallons annually, but not to exceed 37.7 cubic feet per second.

Actual construction work shall begin on or before June 3, 1979

Proof of commencement of work shall be filed before July 3, 1979

Work must be prosecuted with reasonable diligence and be completed on or before June 3, 1979

Proof of completion of work shall be filed before July 3, 1979

Application of water to beneficial use shall be made on or before January 18, 1981

Proof of the application of water to beneficial use shall be filed on or before February 18, 1981

Map in support of proof of beneficial use shall be filed on or before
